

Website Building: Basic Styling

CSS – CSS properties

The following exercise contains the following subjects:

- ◆ CSS properties

Instructions

In order to achieve the following with a `<div>` tag, what properties and values should be used? For each property you will apply your answer on a div containing the text Hello world.

1. Add thin, red border; Increase the font size; Give it round borders
2. Make the font bold and italic with CSS
3. Create a shadow around the element ; Make the background black; Make the font white; Make the font-family monospace

Hello World

Hello World

Hello World

Submit the file to Hive.
